Subject: **Change of the E SUPPLIER application for ETS entering**

Dear Contractor,

As part of our continued commitment to excellence and efficiency in our operations, we are approaching a key milestone - the deployment of SAP S4 HANA and SAP Ariba with a target go-live as of January 2025.

As the launch date of the new systems is approaching, we would like to inform you about the changes that are related to our business relationship and affect our regular cooperation, specifically about the **change of the U. S. Steel Košice s.r.o./ hereinafter USSK/ E SUPPLIER application for ETS entering /ETS module/ for the new WorKEY application.**

The **WorKEY application** is designed to enter the receipt of work and materials supplied by contractors on the basis of orders and contracts. **The new WorKEY application shall replace the current ETS module** and offer the same functionalities as the current E SUPPLIER **ETS module.**

Login, transactions as well as the WorKEY app are **free of charge.**

During the migration of our data to the new system, there will be a scheduled period of system freeze. During this period, some processes will be temporarily unavailable, and we will not be able to carry out certain activities. Therefore, we would like to inform you about the following dates:

- **You must enter all work carried out until 31 December 2024** to the existing USSK E SUPPLIER web application in the ETS module no later than **2 January 2025, 10:00 AM.**
- After this deadline, the web application E SUPPLIER, ETS module, will be unavailable and it will not be possible to make any changes to it.
- It will be available to read and view existing data.
- As it is the holiday season, it is necessary to secure sufficient personnel capacity to carry out these actions.
- You will enter all services/work performed after 1 January 2025 into the new USSK **WorKEY** application.

You will receive notification about the launch and work in the new application **in January 2025.** When you launch the new WorKEY application, you will be sent a login link. Your previously entered and **used email addresses**, which are used for logging

U. S. Steel Košice, s.r.o.

into the current ETS system, remain valid and **will be mass migrated to the new WorkEY platform.**

In case of any changes to your email addresses or discrepancies, please let us know.

We appreciate your cooperation and support in this important endeavor.

If you need assistance or further information, please do not hesitate to contact us:

Mária Fedorová	mariafedorova1@sk.uss.com	+421 917 097 222
